

- **Attention Parents!** Now is the perfect time to get your school physicals and immunizations done for the 2019-2020 school year. ALL incoming 6th grade students must have a new school physical completed and be up to date on their vaccinations. Vaccinations include Tdap, Hepatitis B and the first dose of the meningococcal vaccine. I would like for all 5th grade students to have this completed by April 12th so I can get them entered and ready for registration in June. If you turn them in by **April 12th** your child will receive **1 “jeans pass.”** So, get your appointments now and have your student turn their paperwork into me ASAP!

Please let me know if you have any questions.

Thanks,

Mrs. Zindars

School Nurse
